

Dr. Baker is a Board Certified Pediatrician in practice since 1990. His experiences include private, community-public health and academic Pediatric care. He is a Fellow of the American Academy of Pediatrics and a Section Member of Developmental Pediatrics.

He obtained his Medical education at the University of Mississippi Medical Center, Pediatric Residency at Emory University and has additional Developmental Pediatric training from the University of Virginia.

After Pediatric Residency, Dr. Baker headed a Community Health Clinic Pediatric program and held academic positions at the University of South Alabama.

After this Dr. Baker moved to practice in Ocala Florida while his wife attended graduate school at the University of Florida. After his wife completed her education Dr. Baker attended a Development Pediatric program at the University of Virginia then returned to Mount Dora to practice.

Dr. Baker's education and experience has instilled a strong sense of advocacy for all children and especially for those with special needs

Dr. Baker and his wife have settled in Mount Dora with no plans to move. He loves his community and can be easily spotted out and about in Mount Dora.

When not working, you can find Dr. Baker playing musical instruments; including upright bass, acoustic guitars and ukuleles.
